Atlanta Office

Italian Trade Commission
Government Agency

Atlanta, October 4, 2007

TO WHOM IT MAY CONCERN:

When the Italian Trade Commission made the decision to upgrade our network we turned to Mr. Lusher for his expertise. Our network was still on the old coax network so he designed and oversaw the Ethernet installation as well as brought in new computers and server. The transition from the old network to the new was smooth with minimal work interruption. He also gave us a personal guarantee to fix any issues during the first three months of service which he honored. Our network is upto date and running smoothly we would do business with him in the future and recommend him to anyone.

Sincerely,

Giovanni Bifulco
Italian Trade Commissioner
